

Scholarships

Scholarships for Prospective Undergraduate Students

International students have the opportunity to gain admission scholarship at Sabancı University. Every international candidate, who applies to Sabancı University, is evaluated for a scholarship automatically when they fulfill the application requirements. However, please keep in mind that there are limited numbers of scholarships in all levels and competition is very keen. Thus, certain scores do not guarantee specific scholarship levels. While filling out the application form, you can fill in the related area to demonstrate that you would like to be considered for a scholarship. Yet, keep in mind that all applicants are automatically evaluated for scholarship even if they do not fill this section. Additionally, please note that there is a chance to request scholarships when you complete at least two semesters as SU with outstanding grades. See **[the scholarship option offered during studies](#)**.

Please note that your academic background, reference letters, exam results, transcripts, interview results and any document showing your academic success such as prizes in the competitions, any Olympiad certificates will be considered by the Scholarship Committee. Therefore, you should not miss out uploading these types of documents. Scholarship committee reserves the rights to request additional

documents and/or conditions from prospective students.
Once you are granted a scholarship during the admittance, it goes on for your regular education period.

Please note that early applicants will have a priority for scholarship committee and more likely to earn a scholarship.
Please see the **application deadlines**
